Install Address:

7525 W Greenfield Ave, West Allis WI, 53214

Overview:

Key Code media is going to install 16 new wireless conference units with 16 dual flex wireless gooseneck microphones. In addition, we will integrate a new Digital Signal processor that will be programmed to mix all the audio in the room. A listen technologies RF Transmitter will be installed in the council chamber, room 128 and the Art Gallery and a network server will be integrated for the hearing impaired over IP. Training on the solution will be included as well. As a second Phase to the project an Audio DSP will be installed in the Art Gallery. A new Rack will be installed as well to house the new Audio DSP, Amp and Gear.

Client Responsibilities:

Client is responsible for making sure the room is ready for Key Code to come in on four consecutive days to complete integration and training of said system. We will need 5 IP addresses on the City network for connection of new equipment. Also Balanced Audio cable will need to be run from each of the 3 rooms back to the control room for the hearing loop equipment. Speaker Cable will need to be run from the Art Gallery to the Specific Speaker locations, and this can be done by KCM if needed.

Timeline:

The time line for this project will be determined by equipment availability as well as schedules of Key Code integration team and the City of West Allis team. Current equipment lead time is 8-10 weeks.

Legal Disclaimer

Additional Services: After initial purchase, if there are additional services required by the customer outside of the original Quote a change order will be issued to cover costs.

Customer Furnished Equipment (CFE): Existing equipment and CFE are not the direct responsibility of Key Code Media. If this equipment interferes with our ability to complete the project an additional quote for labor may be required for completion. Existing equipment and CFE will not prohibit the sign off on any project.

3rd party vendors: Key Code is not responsible for 3rd party vendors or software. Any equipment or software purchased outside of Key Code will not affect the delivery or sign off on any project.

Security: Please note; to reduce the possibility of _hacking_, it is the client's responsibility to evaluate its own security risk and take all measures deemed necessary by your IT department. Only by request, can KCM engineers in conjunction with manufacturer support, assist your IT department with making password changes on _storage, archive, editorial, etc._; otherwise, product will be delivered and deployed with default passwords as set by the manufacturer. This should be no less important than would your password for your _email, cell phone, bank account, etc._

Delivery/Acceptance: Keycode Media has the right to delay job schedule due to a 3rd party contractor's job completion. Keycode Media will delay the job completion, for every day that the job is delayed by a 3rd party. Keycode Media will install per the agreed date pending product availability, it will be a joint decision of installation on both parties pending manufactures back-order items. Clients have the right to refuse installation if all parts ordered through Keycode Media are not available the day of the installation.

Travel: If travel is involved then there is a 48-hour cancellation policy. If travel cancellation occurs before the 48-hour period there will be a penalty charge applied, if it occurs after the 48-hour mark the full travel amount will be charged.

Environment: Power and power distribution is not the responsibility of Keycode Media unless specifically defined within this Scope of Work.

Business hours: Unless otherwise noted, all labor is quoted based on normal business hours. 9am to 6pm Monday through Friday.

Project Conclusion: At the conclusion of this installation Key Code Media will provide a 30-day window of phone/remote support covering installation related issues. In this 30-day window, KCM will render assistance with manufacturer related defects encountered by way of either repair, and or return, dependent upon manufacturer's warranty specifications. This support would not include training, unless otherwise purchased, nor would it cover issues arising from upgrades performed after the installation has concluded. Such upgrades could otherwise cause the technology installed to either malfunction, or not function as originally designed or intended by the manufacturer.
