Scorpion II TL-3 Towable Attenuator
MASH Tested, Passed and Eligible

Scorpion II TL-3 (62.5 mph/100 kph) Towable Attenuator Specification

The Towable Attenuator (TA) is a mobile crash cushion designed with a trailer tongue and axle/wheel that connects directly to the support vehicle's trailer connection and from a lunette eye on the attenuator. The TA can be used on support vehicles with a minimum actual/curb weight of 12,000 lbs with no upper weight limit (infinite weight). The TA has overall dimensions of 17.8 ft (5.4 m) x 8 ft (2.4 m) x 4.3 ft (1.3 m) with ground clearance of 12.0 in \pm 1.0 in (305 mm \pm 25 mm). The TA consists of three main components: the trailer tongue, front Strut, and rear Cartridge. The trailer tongue is positioned nearest to the support vehicle, the Strut is bolted to the tongue and Cartridge. The Cartridge is the rear most component, furthest away from the support vehicle. The trailer tongue acts as a standard single point connection under normal towing conditions. The trailer tongue is designed with an integral Telescoping Anti-Rotation System (TARS) that is activated when the TA is impacted. The forward sliding action occurs during an impact, upon completion of the full telescoping action the outboard anti-rotation supports come into contact with support vehicle frame plate which in turn prevents angular rotation about the rear of the host vehicle. The Strut consists of four outboard convex aluminum tubes forming an aluminum structural weldment. The aluminum structural weldments bolt directly to the TARS tongue and the rear Cartridge. The structural assembly encompasses the aluminum crush Module D. The Cartridge consists of four outboard convex aluminum tubes forming an aluminum structural weldment. The aluminum structural weldments bolt directly the Struts steel angles and rear trailer diaphragm. The TA uses a Cartridge Trailer Diaphragm with an axle/wheel attachment for towing the TA. The structural assembly encompasses the two-aluminum crush Module C's. Attached to the rear most end of the Cartridge is the single crush Module A.

NEEDS AND ESTIMATE SUMMARY:

All components of the project must be defined in the environmental document if any portion of the project will be submitted for approval in a federally funded program. No work on final engineering and design may occur prior to approval of the environmental document.

Existing Roadway/Equipment - Describe and give reason for request: The City of West Allis owns, maintains, and operates its street lighting infrastructure. The original 1930's era high voltage series lighting with 4800-volt direct buried cable along the street edge is still operational around the city. The Project Sponsor agrees to the following project funding conditions:

All Project Sponsors and processes, including environmental documentation, must comply with *A Sponsor's Guide to Non-Traditional Transportation Project Implementation* (Sponsor's Guide) and the current WisDOT Facilities Development Manual (FDM).

This project is currently scheduled in State Fiscal Year TBD. Sunset date: TBD

Sunset Date is determined based on the date a project is scheduled to be authorized. All projects must be completed by **TBD**

In the summary funding table below, the federal share of the total estimated cost distribution indicates the maximum amount of federal funding available to the project. The Project Sponsor will be billed for any required local match and for costs beyond the cumulative federal or state funding.

The subject project is funded with 80% federal funding up to a maximum of **\$554,880** for all federally-funded project phases when the Project Sponsor agrees to provide funds in excess of the federal funding maximum, in accordance with CRP guidelines. Non-participating costs are 100% the responsibility of the Project Sponsor. Any work performed by the Project Sponsor prior to federal authorization is not eligible for federal funding. RE: Proposal for Lighting Design Services – City of West Allis – 2024 CRP Lighting Circuit Upgrades

Dear Traci:

KL Engineering, Inc. is pleased to provide you with this proposal to perform lighting and electrical design for the 2024 Lighting Circuit Upgrades, consisting of circuits D4, D5, and D6. The following attachments are included with this letter, and should be considered part of our contract for engineering services:

- Attachment A – Contract Assumptions and Scope of Services
- Attachment B – Billing Schedule
- Attachment C – General Terms and Conditions

The total cost for lighting design services will be billed on an hourly basis utilizing the enclosed billing schedule with a maximum cost of **\$99,575**. The level of effort for KL Engineering to provide lighting and electrical design is described in **Attachments A and B**.

The assumptions, schedule, and cost included with this proposal have been based on our experience with the previous circuit conversion projects. For reference, the cost for lighting and electrical design included with this proposal assumes a similar magnitude of work as compared to previous years, consisting of 251 lighting units combined between circuits D4, D5, and D6, to be converted by Contractor forces, at approximately \$325/light. Note that this unit cost will appear to have increased, however that is due to the exclusion of conversions by City forces, and instead will utilize a single let project in accordance with the WisDOT program requirements. Additionally, this contract includes a fee of \$18,000 for providing historical screening, environmental documentation, and an abbreviated Design Study Report (DSR).

Project Schedule

We anticipate quickly mobilizing upon receiving authorization to proceed with the intent to prepare biddable plans for a construction site in late fall. See below for the anticipated design schedule for the 2024 CRP lighting upgrade projects:

- May 1, 2024: Authorization to proceed
- Week of June 10th, 2024: Design review meeting
- Late June, 2024: Plans to City for Review
- July 1st, 2024: Final PS&E Deliverable
- Late Summer/Early Fall 2024: Advertisement for Bids

The schedule for the remainder of the construction season will be dictated by the contractor(s) who will be selected to complete the work and other factors that will be determined through the design process.

Basis of Payment and General Conditions

This work shall be completed in accordance with the attached General Terms and Conditions, which shall be considered a part of this contract upon the written approval indicated below. KL Engineering will submit monthly invoices for work completed under this proposal. City of West Allis will reimburse KL Engineering within 30 days from the date of the invoice.

Standard billing rates provided with this contract will be subject to revision as necessary after November 1, 2024. These rates will be reflected in KL's invoice statements at that time.

Our professional services will be performed, our findings obtained, and our recommendations prepared in accordance with generally accepted engineering principles and practices. No other warranty, either expressed or implied is made.

We look forward to working with you on this project. Please let us know if you have any questions regarding this proposal. You may indicate your approval for us to proceed with the specific tasks by signing the appropriate section of this proposal and returning it to us.

Sincerely,
KL Engineering, Inc.

Attachment A

Contract Assumptions and Scope of Services

Lighting and Electrical Design Services

2024 CRP Circuit Conversions

West Allis, Wisconsin

Preliminary Engineering:

The preliminary engineering phase includes data collection and investigative efforts necessary to establish the design parameters that will be subsequently used in the Design Engineering phase.

The scope of preliminary engineering work is similar for all project segments. The preliminary engineering sub-tasks include the following:

- Update the Lighting System Analyzer Database
 - The database prepared as part of the planning study will be updated and maintained on an ongoing basis.
 - Updates include adjusting estimates to reflect 2023 bid results.
- Meetings – KL will facilitate a kickoff meeting at the City of West Allis to confirm the following project details:
 - Lessons learned from 2023 Circuit Conversion Design Process
 - Schedule and project milestones
 - Design methodology and standard practices
 - Points of contact and coordination
- Mapping
 - KL will use the City's GIS database to develop a 2D layout of the extents of each circuit to be used in lieu of actual survey data. This database will also be used to obtain rough approximations of gas and electric utility locations, as well as existing streetlighting infrastructure.
 - KL will coordinate with diggers hotline for utility mapping of the circuit conversion area to determine potential locations of significant conflicts.
 - KL will perform a field review and manually locate all streetlighting units and controls. Data will be uploaded into Civil 3D for design utilization to create removal plans.
 - Field survey will not be collected except for when work falls within roadway reconstruction limits, where KL will coordinate with the City to obtain survey data from others. KL may request additional survey to be completed by the City when more specific mapping data is required.
- Field Work
 - KL will perform field reviews to manually locate all existing streetlighting infrastructure for the specified high voltage series circuits.
 - KL will inspect all existing lighting infrastructure to determine and document its availability for re-use.
 - KL will measure all applicable panel amperages and circuit voltage drops on existing low voltage electrical services to determine capacity for carrying additional loads from converted high voltage systems.
 - KL will field verify and document any significant potential conflicts including complex overhead or underground utility configurations, steep grades, railroad corridors, tree canopy issues, paved terrace areas, and other similar features.
 - KL will field document all existing signing within the project limits as it pertains to shared lighting infrastructure.
- Electrical Standards
 - Includes revisions to the electrical standards and details as necessary based on lessons learned from previous Circuit Conversion projects.
- Deliverables
 - Includes plans with existing conditions mapping and depiction of all features described above.
 - Includes site photos, electrical documentation, and other field notes.
 - Screening List request (DT1030) for both archaeology and history. Assumes no Section 106 is required.
 - Native American notification letters.

- Carbon Reduction Program (CRP) Environmental Checklist (Phase 1 hazardous materials assessment).
- Abbreviated Design Study Report (DSR).

Design Engineering:

This task includes completion of streetlighting and electrical design for the high voltage circuits, as well as development of plans, specifications and construction estimates for preliminary and final project intervals. The scope of design engineering work is similar for all project segments.

The design engineering sub-tasks include the following:

- Meetings – KL will meet with City staff at one (1) design interval to review all circuit conversion design plans and determine any conflicts with scheduling or roadway reconstruction projects.
- Design Standards
 - Lighting design will utilize and reference West Allis standard electrical specifications and details.
 - Lighting infrastructure will be designed to meet NEC specifications.
 - Lighting design will be based on a 1-for-1 replacement with existing lighting units. Exact layout will be designed based on best practices, field conditions, and construction coordination.
 - Photometric modeling and illumination documentation are not included.
 - All lighting infrastructure will conform to the standardized materials as determined for use with these projects. Exceptions to standard conditions may require additional design effort to complete.
- Electrical Service and Controls Coordination
 - Using the City mapping created from GIS and manual locates, proposed cabinet locations will be determined. Proposed cabinet locations shall be optimized by taking consideration of neighboring low voltage service capacities, as well as all future high voltage circuit conversion projects.
 - It is assumed that existing low voltage lighting services outside of the project limits may be considered as a potential power source.
 - It is assumed that proposed low voltage lighting services may be installed with the anticipation for future expansion beyond the project limits.
 - This task includes coordination with the electrical utility for up to one (1) new electrical service per high voltage series circuit being converted, completing the permit form and application, and conflict mitigation.
- Street Lighting Design
 - All existing street lighting infrastructure that was located from manual inspection and GIS databases will be mapped in AutoCAD Civil 3D and required removals will be determined.
 - Final lighting layout, electrical conduit routing, pull box and control cabinet locations will be mapped in AutoCAD Civil 3D.
 - Using the proposed layouts, voltage drop calculations will be performed to determine optimized electrical circuiting and conductor sizing. All calculations will be documented with spreadsheets and will be available for review upon request.
 - Includes establishing requirements for temporary connections, temporary lighting, and other construction operations.
 - Includes accounting for sign replacement where infrastructure is shared
- Field Work
 - Upon completion of pre-final design, KL will field verify all proposed lighting, pull box and cabinet locations to ensure design efficiency and mitigate conflicts with existing geometrics and known utilities.

Bidding and Administration:

This task includes preparing and submitting deliverables for project advertisement and letting. The scope of bidding and administration work is similar for all project segments.

The bidding and administration sub-tasks include the following:

- Prepare Bidding Plans and Specifications – KL will develop and submit construction documents for each circuit conversion for two project intervals, draft and final, with one (1) opportunity for official review after the draft submittal. Deliverables will include the following:
 - Draft Plans, Project Manual, Opinion of Probable Cost, and Sponsor's Guide required documents.
 - Final Plans, Project Manual, Opinion of Probable Cost, and Sponsor's Guide required documents.

- Project Delivery and Administration
 - This proposal assumes that construction estimates will be updated continuously and presented at check-in meetings with the City of West Allis.
 - This proposal assumes lighting designs associated with any concurrent roadway reconstruction projects will be included with the circuit conversion project lettings and will not be bid as part of the roadway projects. Preparing lighting deliverables for multiple lettings may require additional services to complete.
 - This proposal is based on the City completing bidding documents and advertisement for one (1) letting per all high voltage series circuit conversions.
- Meetings and Coordination:
 - Includes one (1) pre-bid meeting with contractors.

WEST ALLIS CAMPAIGN

Proposal Presentation
Phase 1 | May 2024

Welcome back!

SAVAGE

Hello West Allis Team,

We made some bold claims as a unified team back in '17. We (Savage) set the goal of changing the perceptions and misperceptions of what a lot of people thought West Allis was and would always be. We all worked hard. We set forth the plan. And, like we all knew it would, it's working beyond even our expectations.

Now it's time to share our quirky, somewhat weird, cool City with the rest of WI and beyond. To do so we will need a plan, a dedicated team and a campaign that breaks through all of the clutter that is out there.

We have landscaped the market and feel timing is perfect. Let's plan and build this year and launch in '25 as everyone will be ready to see something besides political ads and inventory is readily available next year.

The attached proposal is to build out the strategy, campaign and plan for the next three years and the only way to get started. From there we will share a much more detailed presentation and get buy-in from council and share with the rest of the region.

We are beyond excited to get the band back together.

Sincerely,

Cory Savage + Team

Do Incredible Work, Always.

Every client and every project deserves our absolute best strategy, creative, and execution. We don't take shortcuts, and we never take the easy way out. We will strive to always do the right thing, do it well, and deliver our best.

Choose Positivity.

We choose to enjoy those around us, the work that we do, and who we do it for. We intentionally lean into optimism, dream big, and support one another.

Be Brave.

We stand up for what is right and for what we believe in. We're not afraid to be honest and transparent, and we always do what's best for both our clients and our team.

What we heard...

- You're ready to embark on the next phase of the comprehensive marketing plan in which we want to focus on regional tourism marketing.
- You're looking for a 3 year plan that is supported by a comprehensive campaign to drive hotel stays and promote local business.
- You want to re-engage with Savage, your original partner for the comprehensive City re-brand, to make all of this happen.
- You would like to target 25-44 year olds with a message embracing the quirky, edgy, and welcoming vibe that West Allis exudes.
- You want to focus a large part of the campaign around hotel stays, business trips, local tourism, and staycations.
- You are looking for strategy, photography, media buying, and a digital platform conversion tool (working within City's website capabilities).

*We view this more
as 'The Opportunity'*

PHASE I

Why this matters...

We Listen. We start listening to what you have experienced, what you have tried, what is important to you.

We Dig. We then begin to dig deeper based on what we have learned. We research everything we can to be effective in going after our established goals.

We Measure. After we've spent our time in the trenches, we begin formulating who we need to target, what we need to say, and how we can reach them.

What We'll Do:

- Research + Insights
- Interview Key Stakeholders
- Competitive Landscape + Market Analysis
- Create Campaign Goals + KPI's

Listen, Learn + Measure

Why this matters...

Everything Starts Here. The foundation has been built. We have an incredible brand, and businesses are flocking to West Allis (as predicted). For the most part, local tourism is working, and we are continuing to see it grow. Now it's time to share what West Allis has become to those who are looking for something to do that isn't like any other day trip.

Bring it to Life. There are always a lot of moving parts when it comes to building ad campaigns, but that's truly the fun stuff. There will be a lot of content creation needed, but we're always up for the task. This is where we will define where the campaign will live and how it will look across different channels (in both digital and traditional media).

What We'll Do:

- Plan, Ideate, Identify Audiences + Create a Campaign Book
- Build-out Launch Timeline + Budget
- Create Plan/Outline How the Campaign Continues to Live + Grow Beyond Launch

build the blue prints

SAVAGE

PHASE II

Why this matters...

Relevancy. We will create a micro-site and landing pages that can be regularly updated with key events, additional “things to do,” as well as possible tour days. It is essential that the site is more geared towards visitors and tourism and not just another page on the City’s site. It will play a key role in reporting and analyzing what is working.

Storytelling. The full campaign will need to live out on a digital platform that will feature stories, videos, photography, and why West Allis should be on your list of places to visit.

Build Audiences. There will be an opportunity to build out audiences for ongoing marketing efforts and brand ambassadorship for years to come.

What We'll Do:

- Design an On-brand Site/Presence for Desktop + Mobile to be Integrated with City's Website Partner
- Create Engaging Content Clearly Communicating Our Quirky, Cool, Edgy City.
- Include Calendar and Itineraries to Potential Visitors

create a spot for action

SOCIAL STRAT + CONTENT

Why this matters...

The Megaphone. We want to make this campaign shareable + memorable. Then, unleash it to the world.

Versatility. There will be no shortage of ideas and videos that we will come up with for multiple platforms. We want to make sure that we create assets to share with the City's marketing team.

Consistency. All visuals and messaging must be consistent across paid and organic challenges. The plan is to create an asset library, along with guides on how to use the campaign content.

What We'll Do:

- Develop Theme, Plan + Style for Engaging Content that Clearly Communicates Our Quirky, Cool, Edgy City
- Create a Content Plan + Calendar for the City to Continue to Utilize + Execute On

show off the fun

PAYMENT SCHEDULE

The payment plan below is a partnership agreement for marketing services over a four (4) month period. Any additional project requirements will be billed separately.

- > Month 1 Invoice \$12,000
- > Month 2 Invoice \$12,000
- > Month 3 Invoice \$12,000
- > Month 4 Invoice \$12,000

Contract Duration: All work is to be completed within 30 days from the final invoice date. Any additional work completed after the 30-day grace period will be completed at an hourly rate and billed as an additional invoice.

Late Payments

We know we're going to love working together! But, we can't afford to work for free. To keep things running as smoothly as possible, we'll help keep you aware of payment dates following this timeline:

- 45 days past invoice date: Reminder email will be sent.
- 60 days past invoice date: 2.5% charge will be added to the invoice and reminder call will be made.
- 90 days past invoice date: All work will be stopped until 100% of overdue payments are received.

Contract Termination

We know, we know—this won't be necessary. But, we like to cover our bases, and in the event of extemporaneous, cataclysmic circumstances that may result in your wish to terminate this agreement, we ask for a 30-day written notice. We will use those 30 days to deliver all completed and working files to you (the "Client").

In that 30-day time-frame, 100% of all outstanding invoice balances must be paid, in addition to 50% of the remaining contract balance before the Client receives final files.

Additional Work Requests

The above payment plan is for the scope of this contract only. Of course, we love to keep a good thing going, so if you've got additional work you want us to tackle, let's do it! We'll bill it as either a separate, independent contract, or as an addendum to this proposal.

DEFENDANT.

COMPLAINT

Plaintiff, Whitnall-Summit Company, LLC (hereinafter “Whitnall”) by its undersigned counsel, von Briesen & Roper, s.c., for its Complaint against Defendant, City of West Allis (hereinafter, the “City”), alleges as follows:

NATURE OF ACTION AND PARTIES

1. This action is brought under Wis. Stat. § 74.37(3)(d) for a refund of excessive real estate property taxes to be imposed on Whitnall by the City for the tax year 2023, plus statutory interest, with respect to a parcel of real property located at 6737 W. Washington Street in the City (the “Property”).

2. Whitnall-Summit Company, LLC is a foreign limited liability company, authorized to operate in Wisconsin, with its principal office in Suite 2220 in the Property.

3. Whitnall is the owner of the Property and is responsible for the payment of real estate property taxes and the prosecution of property tax disputes involving the Property and is authorized to bring this action in its own name.

4. The City is a body corporate and politic, organized as a municipal corporation under Wisconsin law, with its principal office located at 7525 W. Greenfield Avenue, West Allis, Wisconsin.

5. The Property is identified on the City's tax records as Parcel Number 439-0001-031.

JURISDICTION AND VENUE

6. This Court has personal jurisdiction over the City pursuant to Wis. Stat. § 801.05(1).

7. Venue is appropriate in Milwaukee County pursuant to Wis. Stat. § 801.50(2)(a).

BACKGROUND FACTS

8. For 2022, property tax was imposed on property in the City at the mill rate of \$28.231353 per \$1,000 of assessed value. The 2023 mill rate is not yet known.

9. For 2019, the City and Whitnall agreed that the full value of the Property was \$57,892,000 and that the 2019 full-value assessment would be the same amount.

10. For 2023, the City's Assessor set the assessment of the Property at \$57,892,000, as of January 1, 2023.

11. Whitnall appealed the 2023 assessment of the Property by timely filing an objection with the City, pursuant to Wis. Stat. § 70.47(16), and otherwise complying with all requirements of Wis. Stat. § 70.47.

12. On April 26, 2023, the Board of Review waived the hearing and sustained the 2023 assessment at \$57,892,000, a copy of which is attached hereto and incorporated herein as Exhibit A.

13. Pursuant to Wis. Stat. § 70.47(8m), Whitnall has timely commenced this action within sixty days of receipt of the notice of hearing waiver.

14. Based on the City's 2022 tax rate and 2023 assessment of the Property herein described, the City will impose a property tax of \$1,634,369.49 on the Property. The exact proposed property tax for 2023 will not be known until the 2023 mill rate has been determined.

FIRST CLAIM FOR RELIEF
VALUE AND ASSESSMENT

15. The allegations of paragraphs 1-14 are incorporated as if fully realleged herein.

16. The value of the Property as of January 1, 2023 was no higher than \$53,880,700, which value was derived from the net income generated by the Property. The specific amount of the value of the Property will be set forth in an amended Complaint, upon receipt by Whitnall of an appraisal, already commissioned, but not yet received.

17. Based on continuation of the 2022 71.79% ratio, the asserted full value of the Property will be \$80,640,800, and the assessment will be \$57,892,000, instead of \$38,681,000.

18. As a result, the 2023 full value of the Property is excessive by approximately \$26,760,058 and the assessment will be excessive by \$19,211,000.

SECOND CLAIM FOR RELIEF
UNIFORMITY

19. The allegations of paragraphs 1-18 are incorporated as if fully realleged herein.

20. The 2022 general level of assessment for the City was 71.79%. The 2023 general level of assessment is not yet known, but will be lower than 71.79%.

21. Properties valued by the Wisconsin Department of Revenue (hereinafter “DOR”) within the City were assessed for 2022 at 71.79% of their full value and, will be assessed at no more than 71.79% of their full value, while the Property has been, and will continue to be valued and assessed at more than 100% of its full value and more than 100% of its correct assessed value.

22. The 2023 assessment of the Property will not be uniform with the assessment of other properties in the City, and therefore the City has violated the Uniformity Clause of the Wisconsin Constitution, Article VIII, § 1.

23. The 2023 assessment of the Property should be equal to its final determined value multiplied by the 2023 general level of assessment in the City, to achieve uniformity with other city properties.

WHEREFORE, Whitnall requests that the Court enter judgment as follows:

A. For a determination that the 2023 assessment of the Property is not uniform with the assessment of other properties in the City and is in violation of the Wisconsin Constitution;

B. For an order directing the City to reduce Whitnall’s 2023 assessment to an amount equal to its full value multiplied by the 2023 assessment ratio.

D. For an award of all litigation costs incurred by Whitnall in this action, including the reasonable fees of its attorneys; and

E. For such other and further relief as the Court deems appropriate and just.

Dated at Milwaukee, Wisconsin this 15th day of June, 2023.

V.

CITY OF WEST ALLIS

WEST ALLIS, WISCONSIN 53214

DEFENDANT.

COMPLAINT

Plaintiff, 80 West Allis, LLC (hereinafter “80 West”) by its undersigned counsel, von Briesen & Roper, s.c., for its Complaint against Defendant, City of West Allis (hereinafter, the “City”), alleges as follows:

NATURE OF ACTION AND PARTIES

1. This action is brought under Wis. Stat. § 74.37(3)(d) for a refund of excessive real estate property taxes to be imposed on 80 West by the City for the tax year 2023, plus statutory interest, with respect to a parcel of real property located at 1414 S. 65th Street in the City (the “Property”).

2. 80 West Allis, LLC is a limited liability company organized and existing under the laws of the State of Wisconsin, with its principal office at 6938 N. Santa Monica Boulevard, Fox Point, Wisconsin.

3. 80 West is the owner of the Property and is responsible for the payment of real estate property taxes and the prosecution of property tax disputes involving the Property and is authorized to bring this action in its own name.

4. The City is a body corporate and politic, organized as a municipal corporation under Wisconsin law, with its principal office located at 7525 W. Greenfield Avenue, West Allis, Wisconsin.

5. The Property is identified on the City's tax records as Parcel Number 454-0635-001.

JURISDICTION AND VENUE

6. This Court has personal jurisdiction over the City pursuant to Wis. Stat. § 801.05(1).

7. Venue is appropriate in Milwaukee County pursuant to Wis. Stat. § 801.50(2)(a).

BACKGROUND FACTS

8. For 2022, property tax was imposed on property in the City at the mill rate of \$28.231353 per \$1,000 of assessed value. The 2023 mill rate is not yet known.

9. For 2023, the City's Assessor set the assessment of the Property at \$4,329,300 as of January 1, 2023.

10. 80 West appealed the 2023 assessment of the Property by timely filing an objection with the City, pursuant to Wis. Stat. § 70.47(16), and otherwise complying with all requirements of Wis. Stat. § 70.47.

11. On April 26, 2023, the Board of Review waived the hearing and sustained the assessment at \$4,329,300, a copy of which is attached hereto and incorporated herein as Exhibit A.

12. Pursuant to Wis. Stat. § 70.47(8m), 80 West has timely commenced this action within sixty days of receipt of the notice of hearing waiver.

13. Based on the City's 2022 tax rate and 2023 assessment of the Property herein described, the City will impose a property tax of \$122,222.00 on the Property. The exact proposed property tax for 2023 will not be known until the 2023 mill rate has been determined.

FIRST CLAIM FOR RELIEF
VALUE AND ASSESSMENT

14. The allegations of paragraphs 1-13 are incorporated as if fully realleged herein.

15. The full value of the Property as of January 1, 2023 was no higher than \$4,606,100, which value was derived from the net income generated by the Property.

16. Based on a 71.79% ratio, which was the general level of assessment in the City for 2022, the estimated asserted full value of the Property for 2023 will be \$6,416,100, and the assessment will be \$4,329,300, instead of \$3,306,700.

17. As a result, the projected 2023 full value of the Property is excessive by approximately \$1,810,000 and the assessment will be excessive by \$1,022,600.

SECOND CLAIM FOR RELIEF
UNIFORMITY

18. The allegations of paragraphs 1-17 are incorporated as if fully realleged herein.

19. The 2023 general level of assessment is not yet known, but will be no higher than 71.79%.

20. Properties valued by the Wisconsin Department of Revenue (hereinafter “DOR”) within the City were assessed for 2022 at 71.79% of their full value and will be assessed at no more than 71.79% of their full value, while the Property has been, and will continue to be valued and assessed at more than 100% of its full value and more than 100% of its correct assessed value.

21. The 2023 assessment of the Property will not be uniform with the assessment of other properties in the City, and therefore the City has violated the Uniformity Clause of the Wisconsin Constitution, Article VIII, § 1.

22. The 2023 assessment of the Property should be equal to its full value multiplied by the 2023 general level of assessment in the City, to achieve uniformity with other properties in the City.

23. At a value of \$4,606,100 multiplied by the current general level of assessment, the assessed value of the Property would be \$3,306,700.

24. The correct estimated property tax to be imposed on the Property for tax year 2023 is approximately \$93,352.61.

25. 80 West will be entitled to a refund of approximately \$28,869.39, plus statutory interest.

WHEREFORE, 80 West requests that the Court enter judgment as follows:

A. For a determination that the 2023 assessment of the Property is not uniform with the assessment of other properties in the City and is in violation of the Wisconsin Constitution;

B. For an order directing the City to reduce 80 West’s 2023 assessment to an amount equal to its full value multiplied by the 2023 general level of assessment in the City.

D. For an award of all litigation costs incurred by 80 West in this action, including the reasonable fees of its attorneys; and

E. For such other and further relief as the Court deems appropriate and just.

Dated at Milwaukee, Wisconsin this 19th day of June, 2023.

AMENDED COMPLAINT

Plaintiff, 80 West Allis, LLC (hereinafter “80 West”) by its undersigned counsel, von Briesen & Roper, s.c., for its Amended Complaint against Defendant, City of West Allis (hereinafter, the “City”), alleges as follows:

NATURE OF ACTION AND PARTIES

1. This action is brought under Wis. Stat. § 74.37(3)(d) for a refund of excessive real estate property taxes to be imposed on 80 West by the City for the tax year 2023, plus statutory interest, with respect to a parcel of real property located at 1414 S. 65th Street in the City (the “Property”).

2. 80 West Allis, LLC is a limited liability company organized and existing under the laws of the State of Wisconsin, with its principal office at 6938 N. Santa Monica Boulevard, Fox Point, Wisconsin.

3. 80 West is the owner of the Property and is responsible for the payment of real estate property taxes and the prosecution of property tax disputes involving the Property and is authorized to bring this action in its own name.

4. The City is a body corporate and politic, organized as a municipal corporation under Wisconsin law, with its principal office located at 7525 W. Greenfield Avenue, West Allis, Wisconsin.

5. The Property is identified on the City's tax records as Parcel Number 454-0635-001.

JURISDICTION AND VENUE

6. This Court has personal jurisdiction over the City pursuant to Wis. Stat. § 801.05(1).

7. Venue is appropriate in Milwaukee County pursuant to Wis. Stat. § 801.50(2)(a).

BACKGROUND FACTS

8. For 2022, property tax was imposed on property in the City at the mill rate of \$28.231353 per \$1,000 of assessed value. The 2023 mill rate is not yet known.

9. For 2023, the City's Assessor set the assessment of the Property at \$4,329,300 as of January 1, 2023.

10. 80 West appealed the 2023 assessment of the Property by timely filing an objection with the City, pursuant to Wis. Stat. § 70.47(16), and otherwise complying with all requirements of Wis. Stat. § 70.47.

11. On April 26, 2023, the Board of Review waived the hearing and sustained the assessment at \$4,329,300, a copy of which is attached hereto and incorporated herein as Exhibit A.

12. Pursuant to Wis. Stat. § 70.47(8m), 80 West has timely commenced this action within sixty days of receipt of the notice of hearing waiver.

13. Based on the City's 2022 tax rate and 2023 assessment of the Property herein described, the City will impose a property tax of \$122,222.00 on the Property. The exact proposed property tax for 2023 will not be known until the 2023 mill rate has been determined.

FIRST CLAIM FOR RELIEF
VALUE AND ASSESSMENT

14. The allegations of paragraphs 1-13 are incorporated as if fully realleged herein.

15. The full value of the Property as of January 1, 2023 was no higher than \$4,570,900, which value was derived from the net income generated by the Property, minus the value of a separately assessed parking area.

16. Based on a 63.50% ratio, which is the projected general level of assessment in the City for 2023, the estimated asserted full value of the Property for 2023 will be \$6,817,800, and the assessment will be \$4,329,300, instead of \$2,902,500.

17. As a result, the projected 2023 full value of the Property is excessive by approximately \$2,246,900 and the assessment will be excessive by \$1,426,800.

SECOND CLAIM FOR RELIEF
UNIFORMITY

18. The allegations of paragraphs 1-17 are incorporated as if fully realleged herein.

19. The 2023 general level of assessment is projected to be 63.50%.

20. Properties valued by the Wisconsin Department of Revenue (hereinafter “DOR”) within the City will be assessed for 2023 at 63.50% of their full value and will be assessed at no more than 63.50% of their full value, while the Property has been assessed at 94.71% of its full value.

21. The 2023 assessment of the Property will not be uniform with the assessment of all other properties in the City, and therefore the City has violated the Uniformity Clause of the Wisconsin Constitution, Article VIII, § 1.

22. The 2023 assessment of the Property should be equal to its full value multiplied by the 2023 general level of assessment in the City, projected to be 63.50%, to achieve uniformity with other properties in the City.

23. At a value of \$4,570,900 multiplied by the current projected general level of assessment, the assessed value of the Property would be \$2,902,500.

24. The correct estimated property tax to be imposed on the Property for tax year 2023 is approximately \$81,941.50.

25. 80 West will be entitled to a refund of approximately \$40,280.50, plus statutory interest.

WHEREFORE, 80 West requests that the Court enter judgment as follows:

A. For a determination that the 2023 assessment of the Property is not uniform with the assessment of other properties in the City and is in violation of the Wisconsin Constitution;

B. For an order directing the City to reduce 80 West’s 2023 assessment to an amount equal to its full value multiplied by the final 2023 general level of assessment in the City and, if 2023 taxes are paid, for an appropriate refund of excessive taxes.

C. For an award of all litigation costs incurred by 80 West in this action, including the reasonable fees of its attorneys; and

D. For such other and further relief as the Court deems appropriate and just.

SEAGRAVE FIRE APPARATUS, LLC

105 East 12th Street
Clintonville, WI 54929,

Defendant.

COMPLAINT

Plaintiff, City of West Allis, by City Attorney Kail Decker, for its Complaint against the Defendant, Seagrave Fire Apparatus, LLC, alleges as follows based upon information and belief:

PARTIES

1. City of West Allis ("City") is a municipal corporation organized under Wis. Stat. Ch. 62, with its principal office located at 7525 West Greenfield Avenue, West Allis, Wisconsin 53214.

2. Seagrave Fire Apparatus, LLC (“Seagrave”) is a foreign limited liability company organized in the State of Delaware and registered to operate in the State of Wisconsin, with its principal office located at 105 East 12th Street, Clintonville, Wisconsin.

JURISDICTION AND VENUE

3. This Court has personal jurisdiction over Seagrave pursuant to Wis. Stat. § 801.05(1)(d) and 801.05(5)(c) because Seagrave is engaged in substantial and not isolated activities within this state and this matter arises out of a promise by Seagrave to deliver or receive within this state or to ship from this state goods, documents of title, or other things of value.
4. Venue is appropriate in Milwaukee County pursuant to Wis. Stat. § 801.50(2)(a) and by stipulation of the parties under Wis. Stat. § 801.52.

FACTUAL BACKGROUND

5. On or about June 10, 2021, Seagrave provided to City a proposal to sell to City a firefighting apparatus known as a Custom Marauder II pumping engine, Model TB50CA, Numbered S.O. 78L80 (“Engine”).
6. The Engine is a custom-built piece of firefighting equipment that is unique to the City’s specifications.
7. On July 13, 2021, the common council for City adopted Resolution R-2023-0415, which authorized the purchase of the Engine under the terms of the purchase agreement.
8. No later than September 22, 2021, the parties, through authorized representatives, executed an agreement that stated City would acquire the Engine from Seagrave for \$684,997.00 and the Engine was to be ready for delivery within 420 calendar days after receipt of the complete defined order. A copy of the purchase agreement is attached and marked **“Exhibit A.”**

9. The parties mutually agreed to specifications, change order documents, and approval drawing signed by the authorized representative of City on or before November 17, 2021.
10. City has substantially complied with all relevant provisions of the purchase agreement and intends to accept the Engine and make payments as they become due.
11. According to Section 3 of the purchase agreement, Seagrave had a duty to deliver the Engine to the West Allis Fire Department at 7332 West National Avenue, West Allis, Wisconsin, no later than January 12, 2023.
12. As of the date of filing, Seagrave has not delivered the Engine to the City.
13. In a letter dated May 2, 2023, Seagrave has declared an intention to delay performance on the contract unless City pays an additional \$102,750 above the listed contract price. A copy of the letter is attached and marked “**Exhibit B.**”
14. At no time did the City indicate to Seagrave that it intended to pay the additional \$102,750.
15. Despite Seagrave stating in May 2023 an intention to not timely perform as specified the contract, on September 28, 2023, Seagrave notified the City that the production start date for the Engine is late October 2023 with delivery expected in January 2024.
16. On September 29, 2023, despite indicating on the prior day that production wouldn’t start until late October, Seagrave sent pictures to the City indicating that its Engine was already under construction.
17. In the morning of October 12, 2023, Seagrave sent additional pictures indicating that the City’s Engine cab is progressing in its manufacturing.
18. In the afternoon of October 12, 2023, the City staff reminded Seagrave that no additional payment was approved by its common council and stated that the City was looking forward

to taking delivery in January 2024, which is about a year later than the deadline contemplated within the purchase agreement.

19. On October 16, 2023, Seagrave responded to the City by saying “Seagrave will place a ‘STOP ORDER’ on the production of the West Allis, WI Pumper” as a result of the City declining to pay the additional surcharge in excess of the original contract price.
20. The October 16 email from Seagrave also stated that unless some compromise is reached between the parties “the components and cab will then be used to manufacture another customers apparatus.”
21. No change orders, strikes, failures to obtain materials, or other causes beyond Seagrave's control have occurred that would justify a delay in delivery beyond the 420 calendar days.
22. Seagrave has the ability to produce and deliver the Engine but is refusing to do so unless City pays an extra \$102,750 above the contract price.
23. Seagrave has produced and delivered, and continues to produce and deliver, similar apparatuses to other customers.
24. City executed this contract to acquire the Engine for the purpose of replacing an outdated 2003 Pierce pumping engine.
25. City has attempted to mitigate damages by devoting substantial time and money to keeping the outdated Pierce pumping engine running longer than its expected useful service life.
26. City has suffered damages as a result of Seagrave failing to timely deliver the Engine including, but not limited to, direct and indirect costs to maintain the outdated Pierce pumping engine.
27. Since January 12, 2023, the expenses incurred to maintain the outdated Pierce pumping engine are reasonable expenses incident to Seagrave’s delay in delivering the Engine and

such damages were reasonably foreseeable at the time the contract was entered into as probable if the contract were broken.

28. Due to the time delay between ordering and receiving a custom-built pumping engine, the City is not able to timely procure substitute goods under Wis. Stat. § 402.712 as a result of Seagrave's breach.

FIRST CAUSE OF ACTION

BREACH OF CONTRACT

29. Paragraphs 1 to 28 are incorporated as though fully set forth.
30. Seagrave breached performance of a duty under the purchase agreement by failing to deliver the Engine to the City as promised by the due date.
31. Performance of the contract by the delivery date was intended to be of vital importance to City, and failure of Seagrave to perform on time constitutes a breach of contract.
32. Even if a failure to deliver the Engine strictly by the delivery date is not a breach of contract, the extent of time that has passed since the delivery date is more protracted than a reasonable time for delivery to occur, constituting a breach of contract.

SECOND CAUSE OF ACTION

BREACH OF DUTY OF GOOD FAITH

33. Paragraphs 1 to 32 are incorporated as though fully set forth.
34. Seagrave had an obligation to deal in good faith when contracting to produce and deliver the Engine within 420 days.
35. Seagrave breached the contract's good faith obligation by indicating that the City's Engine was being actively manufactured under the incorrect assumption that the City would pay the additional \$102,750 and then indicating that the partially manufactured Engine will be

sold to another customer when the City reminded Seagrave that no additional payment was approved.

36. Seagrave presented a partially assembled apparatus to City as though it was constructed from the beginning for City, but that apparatus was generically assembled to induce City into paying the additional requested amount.

37. Seagrave's failure to act in good faith has had the effect of injuring the rights of City to receive the benefits of the contract.

38. Other third parties who agree to amend their contracts to more favorable terms for Seagrave are receiving their equipment first.

DEMAND FOR RELIEF

Wherefore, Plaintiff, City of West Allis, requests that the Court enter judgment as follows:

- A. An order for specific performance of the contract by requiring Seagrave to manufacture and deliver the Engine as soon as practicable for the agreed upon price.
- B. An order for incidental damages resulting from Seagrave's breach in an amount equal to the reasonable expenses incident to the delay or other breach.
- C. If specific performance is not ordered, an order for damages for nondelivery or repudiation consistent with Wis. Stat. § 402.713.
- D. If specific performance is not ordered, an order for damages for loss of expectation in the amount which will compensate the City for the difference between the price paid to obtain a different pumping engine and the price of the Engine originally established within the contract with Seagrave.
- E. An order allowing the City to deduct all or any part of the damages awarded in this matter from any part of the price still due under the same contract.

F. An award of all litigation costs incurred by City in this action, including the reasonable fees of its attorneys.

G. Such other and further relief as the Court deems appropriate and just.

Re: Contract for One (1) Custom Fire Apparatus Model TB50CA and Numbered
S.O. 78L80 (the "Apparatus")

Dear Chief Schaak:

We are reaching out to advise you that the manufacture and delivery of your Apparatus at the original quoted price has become commercially impracticable. We have experienced severe shortages of materials and labor and severe increases in costs for materials, freight, and labor. These shortages, increases and related disruptions have occurred and persisted to a degree that could not have been reasonably anticipated at the time your Apparatus was priced.

Seagrave greatly values your business and is committed to manufacturing custom fire apparatus of the highest quality. We want to work with you to achieve the best possible result under these unprecedented conditions. We ask that you accept a material price increase in the amount of \$102,750 over the contract price.

The decision to request your acceptance of a material price increase has come only after much consideration and extensive efforts to mitigate the impact of these unprecedented disruptions in the supply chain and the labor market.

Dennis Warren, Director – National Sales, or Todd Fell, Regional Sales Manager, will reach out to you to discuss this request and address questions or concerns you may have. We will be glad to provide additional information to help you with this decision.

We kindly ask for your response to this request within 30 days from this letter. After this time, we will assume that you are electing to wait longer for your unit to be produced.

We thank you in advance for your cooperation to help us complete the build of your unit as quickly as possible.

Sincerely,

Seagrave Fire Apparatus, LLC

- 4.2.4 Rates of pay that exceed the actual salary and benefits of Assisting Personnel.
 - 4.2.5 Hours worked outside those established by MPD unless pre-approved In Writing. In Writing approval shall be provided retroactively if Assisting Personnel are acting on a direct command from MPD or, during the 30 minutes immediately prior to or the 30 minutes immediately after a shift assignment and while within the boundaries of the City, responding to an emergency situation which, in Assisting Personnel's professional judgment consistent with the standards of law enforcement officers and the policies and authority as described in Sections 23.3 and 23.4 of this Agreement, reasonably requires them to provide services outside of their assigned work hours to protect public safety. In such instances, Assisting Personnel shall seek approval from Milwaukee MPD command at the earliest reasonable time.
 - 4.2.6 Costs of personal entertainment, miscellaneous items, additional food, or transportation beyond that provided or authorized In Writing.

 - 4.4.2 Final payment under the Agreement shall be predicated, at Milwaukee's option, on a final audit of Contractor's documentation by Milwaukee, state, or federal officials.
 - 4.4.3 Contractor shall reimburse Milwaukee for any disbursed funds that Milwaukee, or local, state, or federal auditors determine have been misused or misappropriated, or for which such auditors determine were not properly supported or were not properly allocable to the Security Grant. Such reimbursement of funds shall be due upon Milwaukee's written demand to Contractor. Notwithstanding Contractor's required reimbursement of disbursed funds to Milwaukee under this subsection 4.4.3, Contractor does not waive any right to seek payment directly from Milwaukee as may be allowed under Section 66.0513 of the Wisconsin Statutes.
- 4.5 Risk. (DELETED).

4.6 Payment Requests for After-Action Activities. Payment terms for any After-Action Activities (as described in Section 24.4) shall be in accordance with requirements of applicable state law.

6. **Security Information.** Contractor shall comply with all privilege and confidentiality requirements and procedures set forth by the U.S. Department of Homeland Security, the U.S. Secret Service or any other governmental entity. If Contractor has custody of a record (broadly construed to include paper or electronic formats) that contains details of security arrangements or investigations relevant to the Convention, Contractor shall, as soon as practical and without delay, notify Milwaukee of any request to disclose such record. Nothing in this paragraph shall be construed to require Contractor to create a record.
7. **Choice of Law and Venue.** The Agreement shall be governed by and construed, interpreted, and enforced in accordance with the laws of the State of Wisconsin. Contractor and Wisconsin agree that for any claim or suit or other dispute relating to the Agreement that cannot be mutually resolved, jurisdiction and venue shall be in an appropriate court of competent jurisdiction sitting in Milwaukee County, Wisconsin. Contractor agrees to submit itself to the jurisdiction of said courts, to the exclusion of any other court that may have jurisdiction over such a dispute according to any other law, except that, if another party obtains jurisdiction over Milwaukee for claims or other actions involving or related to the Agreement in a different forum or venue, Contractor agrees that it shall submit to the jurisdiction of such forum or venue.

MEMORANDUM

TO: City of West Allis Public Safety Committee

FROM: Bob Leischow, MPH
Health Commissioner

DATE: June 11, 2024

SUBJECT: Communication regarding Southwest Suburban Health Department

The City of West Allis Health Department and City of Greenfield Health Department consolidated on April 1, 2024, and became known as the Southwest Suburban Health Department (SWSHD). The merger increased the resident population by approximately 37,000 residents, bringing the total targeted resident population of the SWSHD to about 100,000 individuals (West Allis, Greenfield, Village of West Milwaukee). The number of licensed establishments increased by 236, bringing the total count of licenses to 890 in all jurisdictions covered by the SWSHD. Also, the merger resulted in 5 Greenfield-based employees being added to the SWSHD structure.

The SWSHD is overseen by a 9-member Board of Health (BoH) and includes Mayoral appointees from West Allis and Greenfield, and a Village of West Milwaukee Trustee appointment. Efforts are underway to organize the first meeting of the BoH later in June, when the Board Chair will be elected.

At this time the programs/services provided by the SWSHD have not altered significantly in relation to the programs/services being provided by the formerly-known-as West Allis Health Department and Greenfield Health Department. The array of services includes but are not limited to:

- clinically based nursing services (e.g., vaccinations, STI testing, TB testing),
- community health services (e.g., car seat checks and installations, vision and hearing screening, bike helmet fittings and giveaways),
- environmental health services (e.g., licensing and inspection, nuisance follow up and abatement, rabies control/dangerous dog follow up, blood lead inspections and abatement),
- community-wide engagement activities (e.g., Hope Walk campaign, paint & sip events, naloxone and fentanyl test strip training, healthy cooking classes, community health improvement input and planning, Community Health Improvement Plan-Implementation),
- Women, Infant & Children (WIC) Program services in West Allis, Greenfield, and Cudahy, and
- Senior Center activities.

Programs/services are implemented in West Allis and Greenfield by staff at each location .

In the context of working toward a truly integrated Health Department, via the efforts of the Implementation team, assets and needs have been and will continue to be identified along with opportunities for alignment and improvement, a list of priority tasks has been generated, and using available project planning/management software we are taking strides toward integration. Among the priorities includes onboarding Greenfield-based staff as City of West Allis employees, developing a logo/brand for the SWSHD, working with IT on technology needed to effectively operate a multi-jurisdiction health department, aligning municipal code, creating a mission and

vision for the SWSHD, standing up a new Board of Health, working with the West Allis Finance Department and Wisconsin Department of Health Services on everything related to grants/contracts, and identifying areas of redundancy that can be streamlined.

Rat/rodent abatement

As of 6/3, a total of 83 rodent complaints have been received since the start of the year. In response, 233 rodent educational letters have been issued to neighborhoods where rodent activity was reported- but no active burrows could be identified. And a total of 10 enforcement letters were issued where rodent burrows were identified and related violations were present; 2 of those properties have received a second order due to incomplete compliance.

In terms of baiting, 50 ContraPest bait stations have been placed in 20 alleyways this year and a total of 803 letters were sent to notify residents of those bait stations. An additional 175 bait stations using Orkin are planned to be placed in 34 alleyways, pending award of the CDBG funds to the City. Letters will be mailed to these residents as well.

Senior Center Update

The new membership model at the Senior Center is going well. Our average daily attendance has increased from 103 people in January 2024 to 140 in May 2024. This is a significant increase from where we were at with daily attendance as of last year with 78 people in January 2023 and 93 in May 2023. Moreover, daily attendance is at an all-time high since we began tracking in 2018. We are also happy to report that we have brought in more new members in 2024 than in past years. From January-May 2024, 101 new members have enrolled compared to 117 in 2023 and 97 in 2022. It appears that dropping the membership fee has resulted in a significant increase in membership, allowing more eligible individuals to access the Senior Center and its programs/services.

We have begun offering additional free programs such as a harmonica group, a Linguistic Spanish class, karaoke, a strength training class, beginners chess, and a billiards group. Our members have enjoyed the variety of program offerings and attendance in classes and programs are doing well.

Our fee-based programs are being well attended. Stained Glass and Painting continue to have active participation. Our Fiber Arts instructor had some medical issues which put the programming on hold, however we are working to rebuild participation in the programming now that she is back and are working with the Commission on Aging to assess the fiber arts fees as participation has been low since classes started again.
