WHEREAS, in 1977 the City of West Allis entered into an Agreement with Honeywell, Inc. to implement a performance contract for energy and operational savings; and,

WHEREAS, in July 2007 the City of West Allis Common Council adopted Resolution R-2007-0163 authorizing the Director of Public Works to enter into a new agreement with Honeywell, Inc. to perform an Energy Efficiency Feasibility Study with funding to pay for the study provided by Focus on Energy Grant Funds; and,

WHEREAS, Honeywell, Inc. conducted an energy audit of all City buildings and in a preliminary report dated November 9, 2007 identified a number of “Energy Conservation Measures” that, if implemented, could, based on energy and/or operational savings over the typical ten year length of a performance contract, pay for themselves; and,

WHEREAS, in a preliminary proposal dated March 18, 2008 Honeywell, Inc. presented City staff with an estimated cost to implement all of the proposed “Energy Conservation Measures”; and,

WEREAS, pursuant to section 66.0133(3) of the Wisconsin Statutes, the City has given notice of its intent to award a second performance contract for energy savings to Honeywell, Inc. and at the same time solicited proposals from other providers of such services; and,

WHEREAS, no other provider of such services submitted a proposal.
